Subject: Gold King Mine - Monday - Tuesday conference Call - concrete floor beam / floor finish

It is time to have a discussion and resolve the path forward for the concrete work in the adit. It appears that the excess Shotcrete mix is not going to be suitable for the floor, and it complicates other aspects - such water management. In addition, there are other considerations that have come to light.

Please let us know if you are available Monday morning at 0900 or after 1200. If not Monday, how does Tuesday work ?

Call In number:

Conference Line

Thank you,

Steve
